

SECURE CODE
WARRIOR

WRITING SECURE CODE IS
30x CHEAPER
THAN DETECTING INSECURITIES

Secure Code Warrior is a training platform to teach secure coding to developers. Our vision is to empower developers to be the first line of defense in their organization by making security highly visible and providing them with the skills and tools to write secure code from the beginning.

+ 91 74041 30391

Make your developers the first line of defence in Cybersecurity

CREATE SECURE CODE
IN **39** PROGRAMMING LANGUAGES

Secure Code Warrior is a simple, scalable and positive training platform. Our lessons and tools have been designed to be fun, competitive and engaging for developers. The more your teams use Secure Code Warrior, the better they will become at coding securely, saving time and money spent at fixing bugs.

TRAINING

Self paced learning, flexible, relevant, hands-on and fun. It helps developer security skills grow faster. It covers OWASP Top 10 and common security weaknesses. Supports multiple languages & frameworks.

COACHING PLUG-IN

Real-time coaching plug-in, works like a spell / grammar check. The code-writing profession has reached a point where a real-time security coaching plug-in must become an essential part of their code-writing toolkit.

TOURNAMENTS

Leave behind the boring approach, make it fun, organise a tournament. Get developers involved, build awareness and identify your champions. Helps build a positive learning experience that drives engagement.

ASSESSMENTS

Identify gaps and create strong evidence that secure coding skills are improving. Run customised assessments for employees and contractors. Use during interviews for assessment of candidates.
